RL	-0.02	0.74	-1.58
RR	0.08	0.73	-1.57

DRIVE

☑ Enable driving

☑ Obstacle avoidance

Speed: Fast

Camera tilt

level · body pitch 0°

Mapping

off · lined up with the saved map

Armed: stopped

RECORDING

1047 GB free

What to record

☑ **Camera** front camera, raw 1280×720 at ~5 fps, about 50 GB/hour

☑ **Lidar** point cloud at ~7 Hz, about 25 GB/hour

☑ **Robot pose** odometry, IMU, joints, transforms, tiny, needed to line lidar frames up

Saved as ROS 2 bags in ~/oliver/go2_recordings on the control PC.
